

## Mercury/Mariner 115 Fuel Pump S/N 0B344055 thru 0B380741

It has been determined that some of the Fuel Pump Plates (PIN 98775A2) on outboards within the above serial number range may not have the cross-flow holes. (Figure 1) If the cross-flow holes are not present the fuel pump ability to pump fuel is significantly reduced.

Although the percentage of defective parts is low — we are initiating a 100% replacement program. This is to assure that all 115 owners receive maximum performance and reliability from their outboard.

1. A letter will be sent to every registered owner of 115 models, within the above serial number range, advising them to return their outboard to the selling dealer for warranty replacement of the fuel pump plate. (A copy of the letter is on the back of this Service Bulletin.)
2. Order one Fuel Pump Plate P/N 98775A2 and one Diaphragm Kit P/N 21-42990A1 for each 115 model (within the above serial number range) that you purchased.
3. Upon return of owner's 115 models and/or for all 115 models (within the above serial number range) you have in your inventory:
  - a. Install the new fuel pump plate and diaphragm kit following the instructions in 115 Service Manual 90-86134—3.

- b. Submit a warranty claim for the fuel pump plate and diaphragm kit and 1.0 hour of labor for each outboard requiring this service. More than one outboard may be listed on a claim, but it is essential that all serial numbers are listed.

We sincerely regret any inconvenience this may cause you. We appreciate all dealer efforts to correct this problem and ensure boating satisfaction to our mutual customers.

Dear Mercury Owner:

Mercury Marine has determined that the 115 HP model you purchased may have a defective fuel pump plate. If the fuel pump plate is defective the fuel pump's ability to pump fuel is significantly reduced.

This letter is your authorization to return your outboard to your dealer for replacement of the fuel pump plate at no charge to you. Contact your Mercury dealer to arrange a service date.

We regret the inconvenience this service may cause you, however, we have taken this action to ensure your boating enjoyment and continued satisfaction with our product.
