## Smart Tow Speed Gauge 4.0 and Command Module

### Models Affected

Description	Part Number
Speedo with cruise (black with chrome bezel)	79-879169K11
Speedo with cruise (white with white bezel)	79-879169K12
Speedo with cruise (gray with black bezel)	79-879169K13
Speedo with cruise (white with chrome bezel)	79-879169K14
Speedo with cruise (SeaRay)	79-879169K15

### Situation

The above listed Smart Tow speed gauges require Command Module software version 75 or higher to operate correctly. If Command Module software versions prior to version 75 are used, the gauge will reset to the default setting when the ignition key is turned to the off position and will not save the speed and launch setting programmed by the operator.

## Correction

When installing the Smart Tow speed gauge, make sure that Command Module software version 75 is installed in the Command Module harness.

32071

The Command Module shown above is programmed with version 75 software. If your software version is lower than version 75, please contact Mercury Technical Service for replacements.
