Borg Warner Velvet Drive Distributors (U.S.A. and Canada Only)

Borg Warner has a marine distribution program to provide service for its marine customers. MerCruiser dealers, who may have interest in becoming Borg Warner dealers for transmission sales, service and direct processing of warranty, should contact the Borg Warner distributor in their area (listed, over) for more details on obtaining parts and/or service.

Borg Warner distributors and their dealers may perform warranty repairs for Velvet Drive transmissions installed on MerCruiser engines and submit claims directly to Borg Warner. The MerCruiser dealer must deliver the transmission to the distributor/dealer, or ship it freight prepaid. It will be repaired at no charge if the failure is caused by Borg Warner defects. You may pick it up or have it returned freight collect. Submit a warranty claim to Mercury Marine for your labor and remove and replace the transmission, plus shipping charges. Normal rebuilding and repair service is available through Borg Warner's Distributor/Dealer organization. Contact your area Borg Warner Distributor for warranty and/or service.
