No. 92-4

A. NEW TRIM CYLINDER SPANNER WRENCH TOOL 91-821709

MODELS

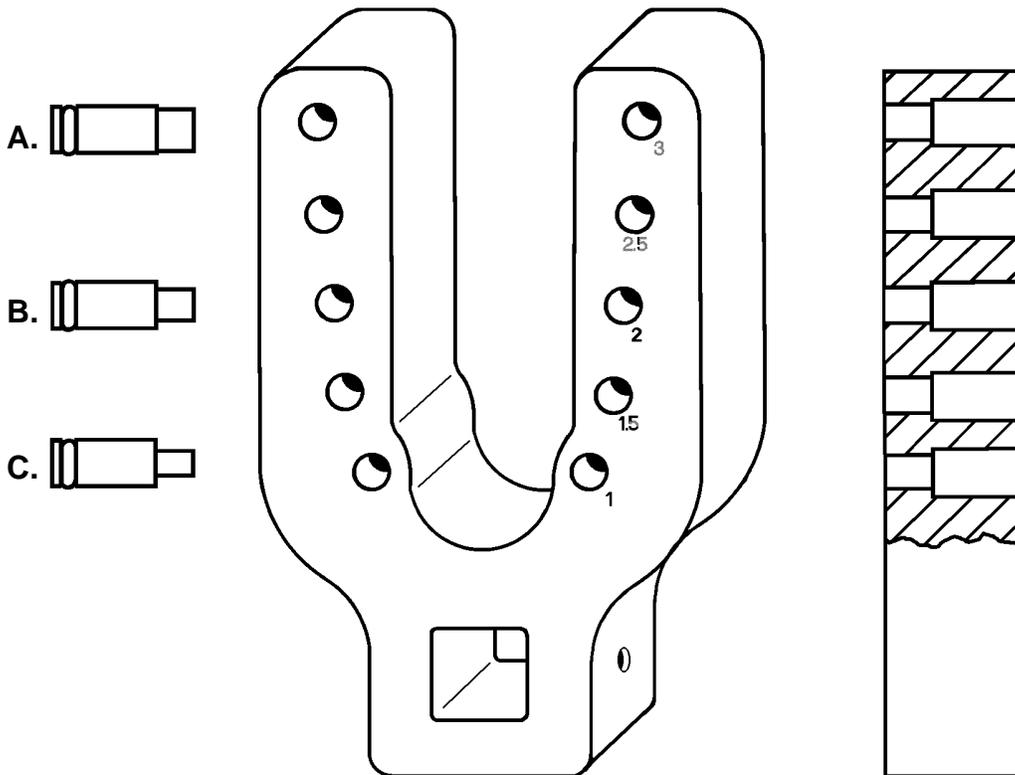

All MerCruisers 1983 and newer plus all Outboards

IDENTIFICATION

Spanner tool 91-821709 is a new tool offered for the first time with changeable pins to fit all trim systems built by Mercury / Mariner / MerCruiser. This trim cylinder spanner wrench is designed to remove the trim cylinder end cap on any Out board or MerCruiser trim system requiring a spanner type wrench. Additional pin sets are available using the following part numbers,

- a. (91-811907 = LARGE PIN SET) (0.235 in.) (5.97mm) diameter
- b. (91-811908 = MEDIUM PIN SET) (0.180 in) (4.57mm) diameter
- c. (91-811909 = SMALL PIN SET) (0.150 in.) (3.81mm) diameter

Each kit will contain (1) spanner wrench and all three of the pin sets listed above.
