Replacement Service Module Reference Charts

Notice
Revised April 2015. This bulletin supersedes the previous bulletin number 2013-62, January 2013.

Models Affected

Please see the Mercury/Cummins Diesel systems listed in the reference charts below.

Situation

The following reference charts should be used for identifying the part numbers of replacement service modules. These part numbers are programmed to function with the systems they are labeled under; however, additional setup may be required when replacing a complete module (i.e. Importation of a Vessel Personality or Helm Configuration and Handle Adaptation).
