

New Style Piston Pin Lock Rings

MODELS

1991 M.H.P. 2.5 Carb/2.5 EFI/ 2.5 EFI Offshore

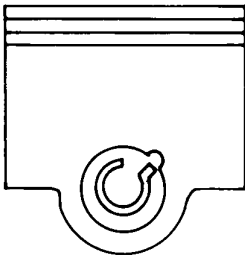

CHANGES

New style piston pin lock rings.

EXPLANATION

The new style lock rings have an anti-rotation tang. When installing the new lock rings the tang must be installed in the slot and the gap in the lock ring must be positioned as shown. Failure to install correctly may cause the lock ring to come out.
