No. 95-5

▲ = Revised 9-97

Hi-Performance Digital ECU Box Applications/Specifications

▲ This bulletin replaces Service Bulletin 95-5 that was revised 4-97. All changes or additions from the last revision are marked with an underline.

MODEL & YEAR	SERVICE PART NUMBER	PROM ID	FUEL REG. PRESSURE	NOTES	REV. LIMIT R.P.M.'S	SUPER-SEDES TO	SUPER-SEDES FROM
2.0L/94	11350A29	N/A	39 psi	A	11500	11350A46	
2.0L/95	11350A45	2615	56 psi	B/G/H	11500		
2.0L/95	11350A46	2615	56 psi	C/H	11500		11350A29
2.0L/95 Service Only	11350A53	2613/ 2650	56 psi	F/G/H	9250		
2.4L	11350A40	2514	39 psi	D	7700		821559A1
2.5L Offshore Race/94	11350A32	N/A	39 psi	A	8200	11350A36	
2.5L Offshore Race/95	11350A36	2509	39 psi		8200		11350A32
2.5L Drag/95	11350A48	2511	39 psi		11500		11350A38
2.5L Drag/96 & Up	11350A63	2719/ 2796	56 psi	G/H	11500		
S3000/94	11350A33	N/A	39 psi	A	9250	11350A52	
S3000/95	11350A47	2508/ 2522	56 psi	G/H	9250		
S3000/95	11350A52	2508/ 2522	56 psi	E/H	9250		11350A33
S3000/96	11350A61	2717/ 2776	56 psi	G/H	9250		
2.5L P.R.O.P./97	11350A65	2622	56 psi	G/H/I	<u>8600</u>		
2.5L EFI/96	11350A49	2510	39 psi		7750		11350A37

NOTES:

- (A) Not compatible with Mercury OTC diagnostic test unit.
- (B) 11350A45 ECU assembly no longer includes the muffler chip.
- (C) The 11350A46 ECU assembly is NLA. Order ECU 11350A45 and 56 psi fuel pressure regulator P/N 12026--2.
- (D) Service item only. Was not original equipment on any 2.4L.
- (E) The 11350A52 ECU assembly is NLA. Order ECU 11350A47 and 56 psi fuel pressure regulator P/N 12026--2.

(F) 11350A53 is the 2.0L P.R.O.P. ECU with two security seals installed. The P.R.O.P. racing circuit is running both 2.0L and 2.5L engines for the 1997 racing season.

(G) 56 psi pressure regulator part no.: 12026--2

(H) High volume fuel pump (P/N 848045A7) is used in conjunction with all ECU's requiring a 56 psi fuel pressure regulator.

(I) New racing class for 1997 P.R.O.P. circuit.

IMPORTANT:

- When installing a digital ECU on an engine that had an external TPI, plug the TPI engine harness lead with plug 848405.
- Muffler must be used if muffler chip is installed in 11350A45 assembly.
- Ground straps must be used on all digital ECU boxes.
- High volume fuel pump kit (P/N 848045A8) contains high volume pump (P/N 848045A7) and mounting hardware:
- Use Prom ID to determine proper part number of any Digital ECU box. Many ECU's in the field are labeled with a manufacturing part number that differs from the number used for service.
