Bearing Cone Replacement Kit

Models Affected

All mechanical, foot operated and electric steer models.

Situation

The bearing cone and roller bearing ring used to join the outer tube and the shaft were previously sold as separate parts. The bearing cone and roller bearing ring are no longer available. They are replaced by a kit that includes the bearing cone, bearing cup, roller bearing and two set screws. For installation, follow the instructions provided in the kit.

Parts Required

Order one of the following kits when needing to service the bearing cone and roller bearing ring of the affected models.

Qty.	Description	Part Number
1	Kit for Aluminum columns	MSS00601S
1	Kit for Stainless Steel columns	MSS00602S
