

WARRANTY INFORMATION **SERVICE INFORMATION**

Warranty and Registration of Unsold Non-Current MerCruiser Hi-Performance Series Products

Non-Current Products

The following inspection, preparation and warranty registration is required to ensure that new, unsold non-current MerCruiser Hi-Performance Series Stern Drive or Inboard packages are in good operating order and warrantable condition prior to customer delivery.

- Correct any items found defective.

1-2 Model Years Non-Current

- Complete inspections and preparations per the Pre-Delivery Checklist
- Complete and submit the warranty registration

3-5 Model Years Non-Current

1. Inspect all components for damage, deterioration and corrosion.
2. Drain and refill gear lube.
3. Change engine oil and filter.
4. Replace water pump impeller and lubricate engine coupler and propshaft splines.
5. Inspect all fuel lines, fuel pump gaskets and spark plugs.
6. Lubricate all lubrication points.
7. Spray lubricant into cylinders and prime the engine oil system before operation.
8. Operate the boat and check for leaks and proper functioning of all items.
9. Complete inspections per the Pre-Delivery Checklist.
10. Complete and submit the warranty registration per current instructions.

Warranty
