## DTS Rigging Kits

### Models Covered

These rigging kits are used on all Mercury Racing outboard and sterndrive engines with digital throttle and shift (DTS).

### Scope

Worldwide

### Situation

Mercury Racing reconfigured the DTS rigging kits so that the outboard and sterndrive boats can be rigged with the same kit.

### Correction

The OEMs and dealers will order one kit for the boat's engine configuration (single, dual, triple, quad). A 14-pin extension harness must be ordered separately to connect the engine to the helm harness—extension harnesses depend on the length of the boat and the distance to the helm (one for each engine). If it is a sterndrive engine, a power valve block assembly must be ordered for the steering system (usually one per boat).

### What Parts to Order

Description	Part Number
Single panel mount	8M0101414
Single engine rigging kit, zero effort (ZE)	8M0101413
Dual engine rigging kit, ZE	8M0101415
Triple engine rigging kit (shadow), ZE	8M0101416
Quad engine rigging kit (shadow), ZE	8M0101417
6 foot, 14-pin extension	892451T06
10 foot, 14-pin extension	892451T10
15 foot, 14-pin extension	892451T15
20 foot, 14-pin extension	892451T20
25 foot, 14-pin extension	892451T25
30 foot, 14-pin extension	892451T30
40 foot, 14-pin extension	892451T40
Power valve block assembly (sterndrive power package only)	844399T01
