Revised May 1997

MCM V6 185 & 205 Long Block Ordering Information

NOTE: This applies only to MCM 185 and 205 models with 2 piece rear main oil seal and engine coupler mounted directly onto the crankshaft.

P/N 13409A1 (185 hp) and P/N 13410A1 (205 hp) Long Blocks supersede to P/N 14149A1 Long Block. The P/N 14149A1 Long Block has a full circle rear seal. When using this Long Block as a replacement for either the 13409A1 or 13410A1, certain other parts will have to be ordered to make it work.

Also Order

Quantity	Part Number	Description
1	222-9518	Flywheel
1	12675A 5	Flywheel Housing
1	18643A7	Engine Coupler
1	27-11977	Intake Manifold Gasket (Note 1)

Note 1: Intake Manifold from old Long Block has to be transferred to the new Long Block.
