

Oil Filters For D7.3L D-Tronics

Models

D7.3L D-Tronics, D7.3L D-Tronics LD (S/N 0L391833 and above)

Situation

The above listed engines previously used oil filter **P/N 35-805809** which can be determined by measuring the length of the filter. This filter is 5.5 in. (139.7 mm) long. Some engines have modifications that required a longer oil filter **P/N 35-862889**, which is 7.5 in. (190.5 mm) in length and engines serial number 0L391833 and up in production also use this longer filter. Proper identification of the oil filter should be made before ordering if engine serial number is below 0L391833.
